Gigabit PC Card

Gigabit Power Supercharges Your Ethernet Network

NETGEAR's Gigabit PC Card injects dynamic force into your home or small office notebook PC so you can transfer huge files at astonishing speeds. Whether they're video files at home, or the largest CAD or database files at work, this powerful 1000 Mbps adapter moves them up to 10 times faster than Fast Ethernet and 100 times faster than 802.11b wireless! It is designed for easy operation as it instantly connects you to other networked computers, print-ers, routers, network storage, and the Internet. NETGEAR's unique Smart Wizard Performance Dashboard lets you monitor actual speed, while 10/100/1000 Mbps auto-sensing speeds up performance and eliminates any need for manual switching. Wide compatibility with all major operating systems and other Ethernet products does away with potential user hassles. What's more, installation is simple - in fewer than five mouse clicks, Smart Wizard Install Assistant has you up and running full speed ahead.

Super Fast Energizes your network with blazing 1000 Mbps performance. Up to 10 times faster than Fast Ethernet, and up to 100 times faster than 802.11b wireless, NETGEAR's Gigabit PC Card transfers huge files in a flash, at home or in the office. Furthermore, it is equipped with 10/100/1000 Mbps auto-sensing capability to speed up performance and eliminate the need for manual switching.

Hassle Free The Smart Wizard Install Assistant makes setup quick, simple, and painless. Fully backward compatible with 10 Mbps and 100 Mbps Ethernet products, NETGEAR's Gigabit PC Card also supports all major operating systems.
